

PRODUCT INFORMATION

Novel synthetic guided wound closure matrix for difficult to heal wounds

PRODUCT SUMMARY

- **SUPRA SDRM®** is a novel synthetic, guided wound closure matrix, built as a bimodal foam membrane structure for the management of chronic wounds.
- **SUPRA SDRM®** combines the benefits of the microporous structure known from Suprathel® that builds a protective barrier allowing the wound to heal and additional large pores which were created to enable ingrowth of blood vessels.
- **SUPRA SDRM®** is fully synthetic – no animal derived components – polylactic acid as the main component reducing the biologic risk and inflammatory reactions.
- No preparation of **SUPRA SDRM®** matrix necessary.
- When applied to the wound **SUPRA SDRM®** adheres well to the wound bed without the need for direct fixation.
- **SUPRA SDRM®** becomes translucent after the application allowing healthcare professionals to easily assess the wound healing.
- **SUPRA SDRM®** is available in multiple sizes and can be trimmed to meet the patient's needs.

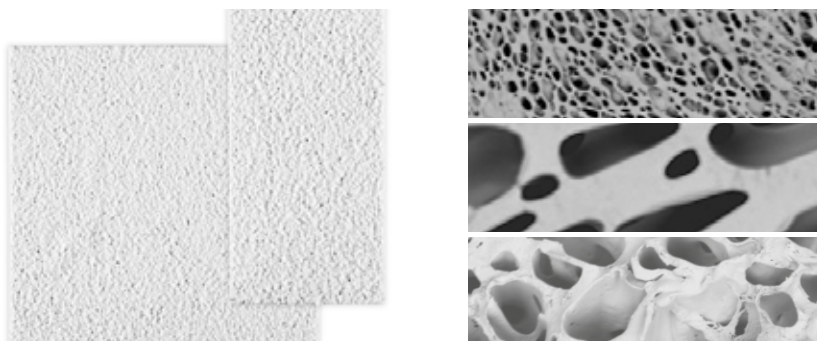

INDICATIONS

SUPRA SDRM® is indicated for use in the management of:

- Pressure (stage I and IV) and venous Ulcers
- Ulcers caused by mixed vascular Etiologies
- Venous stasis and diabetic ulcers
- Partial and full thickness wounds
- Partial thickness burns
- Trauma wounds
- Surgical wounds

SUPRA SDRM® APPLICATION QUICK GUIDE

- Apply **SUPRA SDRM®** and cover with non-adherent mesh dressing; apply outer dressings for desired drainage management to maintain a moist wound healing environment.
- **SUPRA SDRM®** may be reapplied every 7 days or as needed until wound healing is achieved.
- Outer dressings may be changed if soiled.

PROPERTIES

Composition	Lacto-capromer, main constituent: Polylactic acid
Degradation	Hydrolytical (to CO ₂ and H ₂ O)
Thickness	1.5 - 2.1 mm
Porosity	> 85%, micro-pores 13 - 300 µm
Sterilization	Gamma Sterilization

PACKAGING INFORMATION

Size	Units	Order-No.
1 x 1 cm	1	310101-US
18 mm	1	31D018-US
2 x 2 cm	1	310202-US
5.1 x 5.1 cm	1	310505-US
9 x 9 cm	1	310909-US
9 x 12 cm	1	310912-US
18 x 9 cm	1	311809-US
18 x 18 cm	1	311818-US

Wound bed preparation

Debride devitalized tissue and refresh the wound with cross hatching as needed. Bring to hemostasis.

SUPRA SDRM® application

Apply **SUPRA SDRM®** to cover wound surface.

Non-adherent secondary dressing

Apply non-adherent dressing to keep **SUPRA SDRM®** in place. Apply outer dressings for desired drainage management.
